90%

of law enforcement officers experience difficulties in identifying species and animal products

The background of the slide features a close-up, slightly blurred image of a yellow measuring tape. The tape has black markings and numbers, and is printed with Chinese characters in red and black. A black pen is visible in the upper left corner, resting on the tape. The overall lighting is soft, and the focus is on the texture and details of the tape.

# WCS China advantage

- ✓ Endorsement by Government (Forestry Police, Customs, etc.)
- ✓ 400+ species database
- ✓ Well-established practice of capacity building workshops
- ✓ 24/7 Experts' Support
- ✓ Extensive network of civil society partners

# Main Features

### Features

- Computer assisted search
- Expert support
- News feed
- Geo-location

### Database

- 200 species

### Deployment

- Beijing and Guangdong law enf.

### Platform

- iOS

### Features

- Case Reporting
- Social media integration

### Database

- >400 species
- 15 products

### Deployment

- Customs
- NGOs

### Platform

- Android

### Features

- Multilanguage support

### Database

- >600 species
- >30 products

### Platform

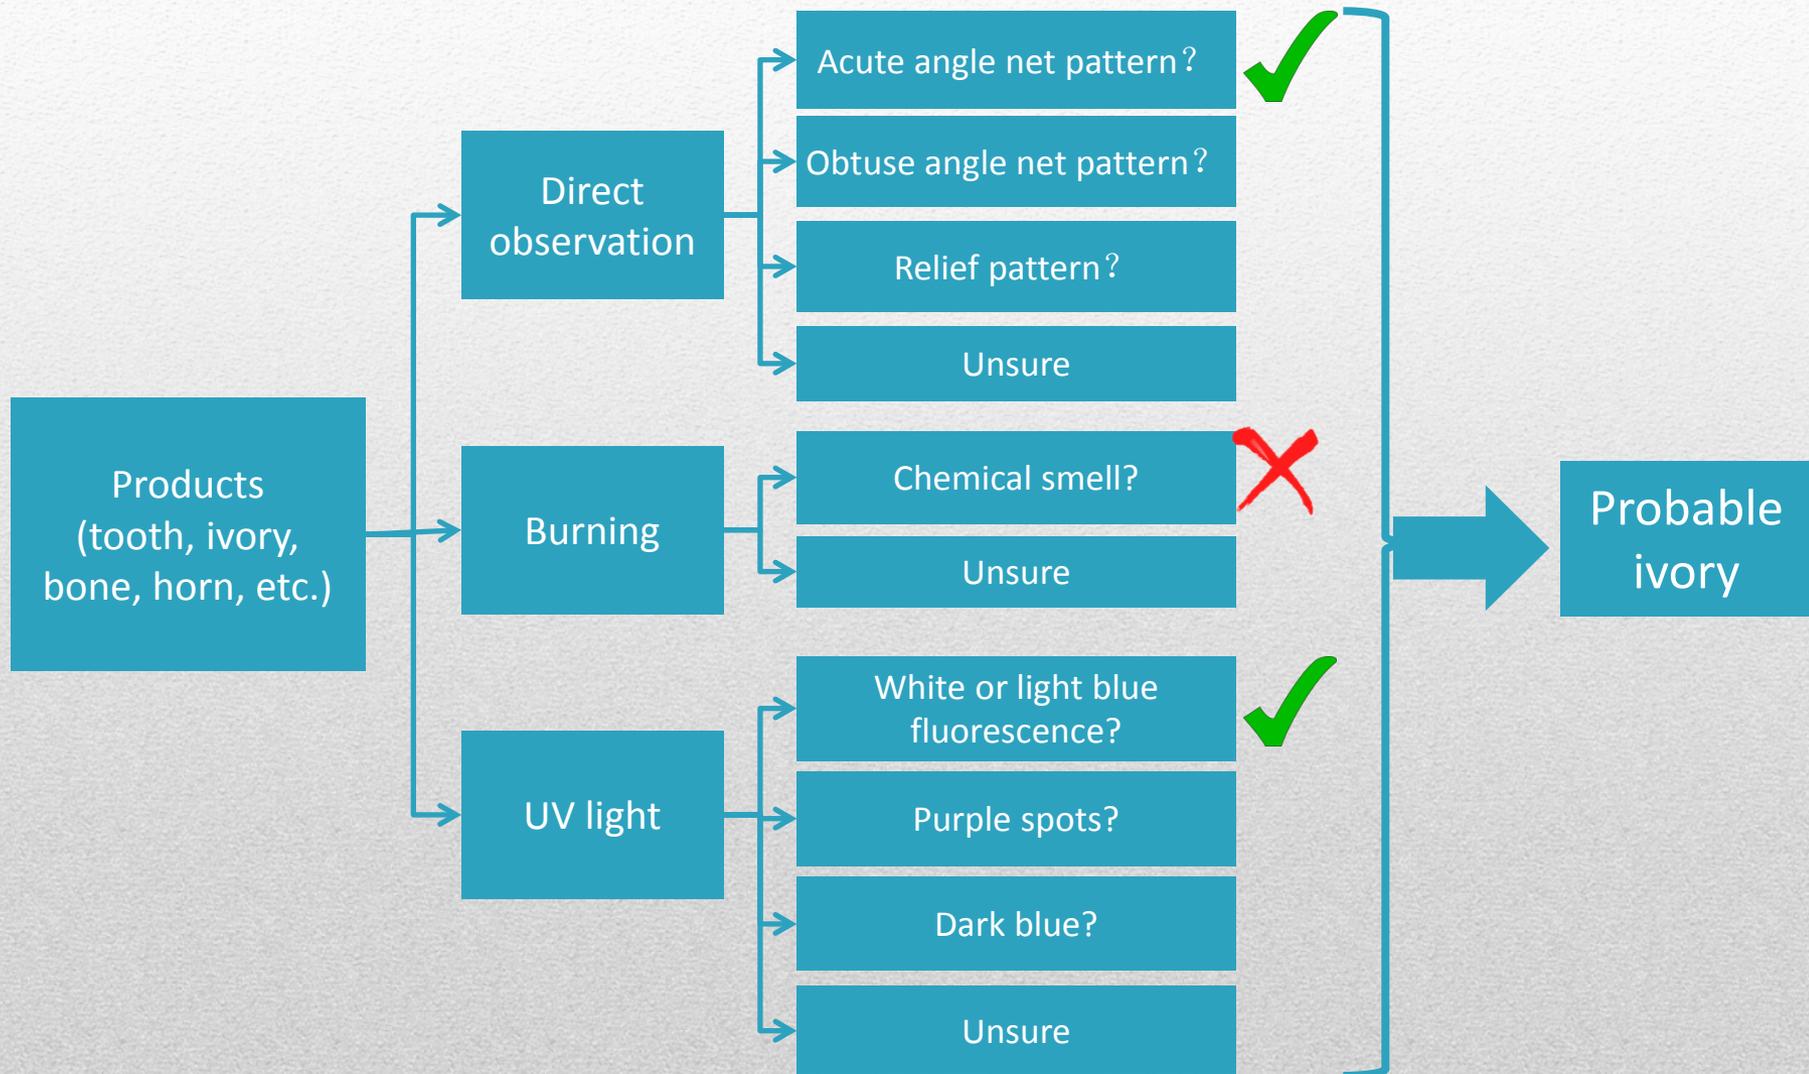

- HTML5 (web-based)

**Database** back-end provides an **easy-to-use** interface that allows for a **collaborative management** and updating of 400 and counting detailed species records.

## a) Forestry Police & Customs

- Vis-à-vis to high-level officials
- Regular capacity-building workshops
- Short and focused ad-hoc training events

## b) Civil Society Organizations

- Periodic *app-focused* meetings
- Mailing lists

## c) General Public

- Media and social media campaigns

**Promotion and dissemination**

# Synergy

Wildlife Guardian will become a framework for consolidating current WCS strategies to fight illegal wildlife trade and enhance their impact.

Market monitoring activities are the main focus of this software. Its versatile capabilities will also enable to deliver knowledge and sensitize both the public and law enforcement officers towards wildlife protection.

# Test case

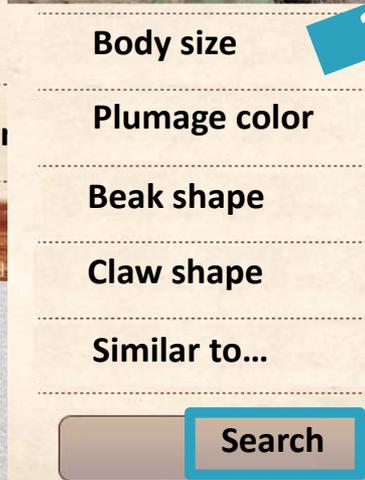

A law enforcement team has found a bird that looks like a parrot in a pet shop in Guangzhou.

A quick on-site identification of this bird's species is needed to understand whether its trade is illegal or not, and assess how severe is the breach of law.

Body size: around 500 mm

# 3-step identification

# ✓ Derby's Parakeet

- listed in CITES Appendix II
- sale prohibited without license.

The shop-keeper is required to show the license for trading this bird. If they fail to provide it, action must be taken according to the laws and regulations referenced in the species fact-sheet.

## Description

通过自助查询和拍照咨询两种方式，协助使用者达到快速识别动物物种的目的。此次发布的是该软件的第一版，收纳了200种贸易中常见物种的信息。开发者希望这个软件能为野生动物的保护和管理工作提供有效支持。

软件功能有：

自助查询：通过筛选动物特征值，辅助用户快速确定物种，并显示该物种主要信息（中英文名称，拉丁名称，主要特征，保护级别等）。

拍照咨询：注册用户可将须鉴定的物种拍照上传至后台，由后台专业人员进行辨认并回复。

数据地图：在注册用户同意的状态下，将用户查询的物种信息和GPS地理位置上传，并显示在手机地图上。

法律法规：收集了野生动物保护的相关法律法规。

最新消息：分享野生动物保育的相关新闻及信息。
